Additional Requests: \_\_\_\_\_

**Please note** there is a reduction in weight from what you pay to what you take home (see below). This is because there are parts the butcher trims and discards as waste (skin, bones, fat, etc.). The take home weight is also affected by your selection of cuts (boneless or not) and if you wish to take organ meat and soup bones. To calculate take home cost, multiply price by 30%. Although we aim to keep our 1/4 's consistent in size (150lbs) they can fluctuate between 120lb-190lb.
